Scenario

When you arrive at the airport, one of the first things you need to do is check-in and drop your bags off. This is where you show your passport, receive your boarding pass and hand over your suitcases, so tags can be placed on them before they are taken to your plane.

Checking-in at the airport is like a teacher taking the register at the start of the school day. We need to know that everyone who is boarding a flight has arrived at the airport.
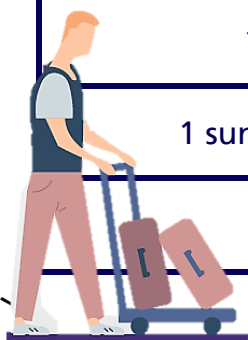

Task A

The table below shows how long it can take to check-in different passengers at an airport. Based on this information, can you calculate how long it takes to check-in all the passengers for the different flights to countries across the world? Write your answers on the next page in hours and minutes.

Passenger	Time to Check-In
1 adult passenger	10 minutes
1 child passenger	5 minutes
1 family of 4 (2 adults + 2 children)	15 minutes
1 business passenger	7 minutes
1 school trip (2 teachers + 15 school children)	35 minutes
1 fast-track passenger	3 minutes
1 sunflower lanyard passenger	15 minutes
1 elderly passenger	15 minutes

💡
Tip
There are 60 minutes in one hour!

Q1

On a flight to New Zealand, there are:

- **10 adult passengers**
- **2 families of 4**
- **4 business passengers**
- **3 fast-track passengers**
- **2 elderly passengers**

Your Answer:

_____ hours and _____ minutes

Q2

On a flight to Canada, there are:

- **15 adult passengers**
- **12 business passengers**
- **2 school trips**
- **8 sunflower lanyard passengers**

Your Answer:

_____ hours and _____ minutes

Q3

On a flight to India, there are:

- **9 elderly passengers**
- **10 fast-track passengers**
- **5 families of 4**
- **10 child passengers**
- **6 adult passengers**

Your Answer:

_____ hours and _____ minutes

Sunflower Lanyards

Wearing a sunflower lanyard at Heathrow lets colleagues know that you have a hidden disability, such as dyslexia, without you having to tell us in person. We can give you extra support at the airport if you need it.

Q4
